

# MERIDIAN UNDERMOUNT KITCHEN & BAR SINKS

Model # MKS220  
Sink Weight 23 Lbs.

## # 220

- Meridian sinks are suitable for undermount applications in a variety of residential and light commercial environments
- Each sink is made from a homogeneous blend of polyester and acrylic polymers engineered to bring together performance and style in every application
- Non-porous surface resists mold, mildew, and stains
- This medium size single bowl is a perfect choice for an island or large bar sink or in combination with other single bowls to create your own custom design
- Approved by the Massachusetts Board of Examiners of Plumbers and Gasfitters
- Certified by the NAHB research center to the ANSI Z124 standard

Massillon, OH 44648
